HOPE TO RESUME ON FRIDAY

Commercial Bank Directors Will Meet To-Morrow.

Robert Snedeker Proposed as a Successor to Kearney.

The situation at the Commercial Bank of Brooklyn has not changed this morning except for the fact that with each of the depositors grow more confident in the affairs of the institution will straightened out before Friday, when it is hoped by the directors that business may resume.

The depositors and stockholders are anxiously waiting for Bank Examiner Judson's report. Until then nobody says just what the deficit will be. It was reported last evening that from a conversation with Mr. Judson he did think there would be some chance that bank would be forthcoming before Friday morning, and possibly not until Tuesday.

It has been agreed by the officials of the bank to call a meeting of the Board of Directors tomorrow morning to consider the question of reorganization. As the bank can be reorganized only by the vote of additional capital, which must come from popular subscription of new directors and stockholders, it is said, it is prevented the scheme from being carried out.

It was estimated by financiers in Brooklyn this morning that it would cost \$100,000 to reorganize the affairs of the bank.

There is some talk among the friends of choosing a successor to Mr. Kearney as President. Mr. Robert Snedeker is most likely successor to Mr. Kearney. The Brooklyn "Globe" says that he has been offered the position as well as a Director of the "Bank." It is said.

There is much talk about the cashier Valia management.
